

COFFEE TABLES

Sulawesi

The benefits of having this round coffee table are endless. They are aesthetically pleasing (who doesn't love a perfect circle?) and don't take up as much room as a square or rectangular piece. Because of this, they have a bit less counter space, but if you purchase one large enough, it shouldn't be a problem.

Leg Colour Options

Cooper

Makes the space look larger as they curve away from other objects creating more distance between the table and surrounding furniture.

Volcanica

Sleek and round in size with a top in grey finish, and well designed stainless steel stand which ensures the table lasts for stability.

Choose your table top colour

IN STOCK

Maiden Wood

Harvard Cherry

AVAILABLE ON SPECIAL ORDER
